Introducing the Softech® Plus Nasal Cannula

Friction can contribute to pressure ulcer formation.¹

In laboratory tests Hudson RCI Softech Plus Nasal Cannulas demonstrated 30% less surface friction compared to alternative cannulas in its category.²

Thanks to a non-DEHP material blend that covers the entire bolo-style lariat, the Softech Plus Nasal Cannula is both soft and smooth, ensuring optimal patient comfort, neonates to adults.

Fisher & Paykel Healthcare developed the FlexiTrunk™ Infant Interface combining intelligent designs with functionality and comfort. The interface complements the F&P Bubble CPAP system and common ventilators on CPAP mode.

(800) 446-3908
ExperienceBCPAP@fphcare.com

For more information on the F&P FlexiTrunk™ Interface and Bubble CPAP System, please contact your local Fisher & Paykel Healthcare representative.
nSight pulmonary function software suite's intuitive design mimics practice workflow, while its simple and flexible navigation mirrors a physician's thinking process.

Anytime/anywhere remote access to PFT related information via HDweb on your iPad, Android tablet or any Internet browser, nSpire Health puts you back in control of your day, interpreting patient tests and digitally signing in under a minute!

nSight™ streamlined PFT testing software
nSight Central™ configurable launch pad
HDweb™ rapid remote data access
HDnet™ EMR/HIS networking & connectivity
iFlow™ PFT accuracy enhancement technology
By focusing on ventilation, HAMILTON MEDICAL has become specialized in Intelligent Ventilation. In intensive care, subacute care and even in emergency transport situations, you need more than high-end technical performance and we are perfectly positioned to respond to all your ventilation demands. You demand ventilation systems that deliver value and efficiency as well as clinical excellence, reducing clinical and management overhead as well as the overall cost of ownership.

You demand ventilators that deliver reliable data and easy-to-follow user guidance for better clinical decisions and a company that can consistently meet your demands. HAMILTON MEDICAL’s G5, C3, C2, T1 and C1 ventilation systems are easy to use, featuring award-winning, intuitive and powerful interfaces that are identical across all platforms. They can be introduced quickly into any complex critical care environment with minimum training.
Directly to their nostrils for proven, FDA-cleared treatment of OSA

The amazingly simple, clinically proven Provent® Sleep Apnea Therapy provides physicians with an effective new option for OSA patients who are noncompliant with their prescribed CPAP.

• Provides clinically significant results
• Works across all severities of OSA
• Requires no mask or machine
• Well tolerated by most patients

The next-generation, near patient blood gas analyzer that enables outstanding patient care.

Introducing the **cobas b 123 POC system**.

Optimal reliability.
Next-generation technology.
Safe and simple.
Empowering the clinician to support VAP diagnostics

The AirLife™ diagnostic catheter’s technology takes the mini-BAL to a new level of performance. Its standardized kit provides everything needed for a single clinician to conduct the procedure and achieve consistent, repeatable sampling with increased accuracy.

Clear the Way for Better Outcomes

Every day, around the world, we enhance outcomes for our patients and their caregivers.

**The Vest. Airway Clearance System**
*Available for Home Care and Acute Care*

The Vest. Airway Clearance System provides safe, easy-to-use and effective therapy that can eliminate the need for patient repositioning and reduce the time spent delivering therapy.

**The MetaNeb. System**
*Available for Acute Care*

The MetaNeb. System is indicated for lung expansion therapy, the mobilization of secretions, and the treatment and prevention of pulmonary atelectasis. The system is very simple and easy to use.

To order today, call 800-426-4224, option #3, or contact your local sales representative.
Accurate diagnosis means accurate treatment

INTRODUCING THE NEW
EasyOne Pro™
single breath DLCO

- PFTs done in half the time
- Small footprint for bedside and stationary lab testing
- Automatic calibration
- Low cost per test
- Color touch screen interface

EasyOne™ Plus
- Great reimbursement
- Easy to operate menu
- Pictbridge compatible
- Not influenced by temperature, humidity, or barometric pressure
- No calibration, simple 3L cal-check
- No cleaning, no maintenance
- Single patient use spirette

The ndd Medical Technologies Advantage
Setting New Standards in Pulmonary Function Testing with Innovative Products

NAVA (Neurally Adjusted Ventilatory Assist) improves asynchrony with closed loop technology that links patient effort to ventilator support. With SERVO-i and NAVA, clinicians have an intuitive breakthrough tool for:

- Diagnosis and correcting of asynchronous ventilation at the bedside
- Intuitive feedback for successful SBT’s
- Continuous evaluation of work of breathing during the course of care

**Neural-driven support — the essence of natural breathing.**

NAVA and SERVO-i are registered trademarks of MAQUET Critical Care AB.
It’s time to lead change

Are you ready to extend the role of oxygen therapy to help reduce escalation in your clinical practice?

Conventional oxygen therapy systems have their limitations. Optiflow offers you the ability to comfortably deliver a complete range of oxygen flows and concentrations to extend the traditional boundaries of oxygen therapy.

Now you can offer patients a valved holding chamber (VHC) that delivers both comfort and performance. Philips' clear, antistatic OptiChamber Diamond is one of the smallest, full-function VHCs available, making it easy for anyone to use, virtually anywhere. Its low-resistance valves open freely, even under low pediatric pressures and flows. And a detachable LiteTouch mask with a soft-seal interface forms to the face with minimal pressure to comfortably deliver aerosol therapy and encourage compliance. Learn more at www.philips.com/optichamberdiamond.
